Number during Spring Term,	453
Total for three terms,	1099
Number of different students during year,	511
Ladies,	295
Gentlemen,	216

COURSES OF STUDY.

NORMAL DEPARTMENT.

PREPARATORY COURSE.

This course of study is intended to prepare pupils for the other courses which follow. It comprises a thorough drill in Arithmetic, Geography, History, English Grammar, Physiology, Reading, Spelling, Writing, Drawing, and Algebra (through fractions.)

ELEMENTARY COURSE.

Students having a good knowledge of the branches of the preparatory course, as named above, can enter this course and be graduated in two years. U. S. History, Geography, Physiology, and Spelling should be completed before entering upon this course. Time for a hasty review is all that can be given to these branches during the junior year.

Persons rejected from or denied admission into the Junior class in any Normal School are not eligible for admission into the Junior class of any other Normal School in the same year.

PROGRAM OF STUDIES FOR THE JUNIOR YEAR.

First Term. 16 weeks.	Second Term. 12 weeks.	Third Term. 14 weeks.
Practical Teaching.	Practical Teaching.	Practical Teaching.
Arithmetic (*percentage and interest, including banking.*)	Arithmetic (*completed.*)	Arithmetic (*half term review.*)
Algebra (*at least through quadratic equations.*)	Algebra (*completed.*)	Algebra (*half term review.*)
English Grammar (*through Analysis.*)	English Grammar (*completed.*)	Book-keeping(*half term.*)
Geography (*reviewed.*)	Latin (*begun.*)	Latin (*sufficient for beginning Cæsar*)
	Drawing (*28 weeks' work required by the State*)	Drawing (*completed.*)
Civil Government.	U. S. History (*review.*)	
Reading and Literature.	Reading and Literature.	Reading and Literature.
Manual Training.	Manual Training.	Vocal Music.

Practical exercises in English Composition throughout the year.

THE JUNIOR EXAMINATION.

At the close of the junior year an examination is held by the State Board of Examiners in the branches of that part of the course, together with those of the preparatory course. Those who are found proficient are then given a certificate which admits them to the senior year.

Persons outside of the school, such as high school graduates and experienced teachers, often take this examination and receive the same certificate of admission. The examination in Practical Teaching and Manual Training (but no other branches) may be taken during the senior year. The studies are as follows:

PROGRAM OF STUDIES FOR THE SENIOR YEAR.

First Term. 16 weeks.	Second Term. 12 weeks.	Third Term. 14 weeks.
Geometry and Mensuration.	Geometry and Mensuration.	Geometry and Mensuration.
Rhetoric.*	English Literature.	English Classics and Elocution.
Psychology.	Psychology and History of Education.	History of Education and General History.
Natural Philosophy.	Natural Philosophy and Botany.	Botany.
Teaching.	Teaching.	Teaching (21 weeks' daily practice in the Model School is required by law.)

*During the year a thesis on some educational subject is prepared.

THE SENIOR EXAMINATION.

At the close of the senior year, an examination is held by the State Board of Examiners in the branches of that part of the course. To each of those who are found proficient, a diploma is then given, in which are named the branches of the course, and the degree of Bachelor of the Elements is conferred upon the holder. This diploma exempts from any further examination for teaching in the public schools of Pennsylvania. These diplomas are often endorsed by the State Superintendent of New York, thus making them valid for that State also.

THE SPRING-TERM TEACHERS' COURSE.

At the opening of the spring term each year a special teachers' class is organized for the purpose of giving special opportunities to public school teachers who wish to prepare themselves for better positions.

A course of study has been arranged for them, which enables them to complete, in three spring terms, the studies arranged for the junior year of the Elementary Course (See page 20), and at the same time review the branches in which they will need to be examined by superintendents.

The arrangement is as follows:

The teachers' class (spring term) is divided into three sections according to scholarship. The first section will take the work laid down on page 20 for the first term of the junior year.

The second section of the class will take the work planned (on the same page) for the second term of the junior year.

The third section will enter the regular junior class and finish the junior work.

Certificates are granted to those of the first section who finish the first term junior work. These certificates will admit them to the second section at the beginning of any ensuing spring term. Similar certificates are granted to those of the second section who complete the second term junior work, which certificates admit the holders into the junior class at the beginning of any ensuing spring term.

POST-GRADUATE SINGLE-YEAR COURSE.

The following course has been arranged for those who, having taken the Elementary Course, desire to fit themselves for the higher positions in the teaching profession for which the Elementary Course does not sufficiently prepare them. It can easily be taken in one year, and those who have taken it, and who then wish to take the Scientific Course can finish that course in one year thereafter.

Persons who take this course need not be examined in all the studies at the same time, but may be examined in part of a year's work, and continue this till the course is completed. By this plan, teachers who can find time to prepare a few subjects each year, may, in time, complete the course and receive the diploma.

The demand for Normal School graduates who have fitted themselves for higher work is greater than the supply. During the past year the Principal was asked to name several Normal Graduates for positions paying over $1,000, but could not find those who met the requirements.

PROGRAM OF STUDIES FOR THE POST-GRADUATE COURSE.

First Term. 16 weeks.	Second Term. 12 weeks.	Third Term. 14 weeks.
Solid Geometry.	Plane Trigonometry and Surveying.	Astronomy.
Chemistry.	Chemistry.	Zoology.
Cæsar, Books 1 and 2.	Cæsar. Book 3, and Virgil, Book 1.	Virgil, Books 2 and 3.
General History.	Logic.	Advanced Psychology.
Moral Philosophy.	Political Economy	Practice in Teaching.
History of English Literature.	*English Classics.	*English Classics,
Reading, "Payne's Contribution to the Profession of Teaching," with notes and written criticisms.	Reading, "Quick's Educational Reformers," with notes and written criticisms.	Reading, "Fitch's Lectures on Teaching," with notes and written criticisms.

*A careful study of four English Classics will be made, with notes and written criticisms on each ; a course of general reading will also be pursued.

SCIENTIFIC COURSE.

When students have completed the studies of the Elementary Course, they can enter this course and be graduated in two years, or if they have taken the Post-Graduate Course they can do it in one year. The studies are as follows:

Pedagogics.—Moral Philosophy; Logic ; Philosophy of Education; Course of Professional Reading, with abstracts, notes, criticisms, to be submitted to Board of Examiners.

Language.—Latin, six books of Virgil, four orations of Cicero, the Germania of Tacitus, or a full equivalent; an equivalent of Greek, French or German will be accepted for Spherical Trigonometry, Analytical Geometry, Calculus, Mathematical Natural Philosophy and Mathematical Astronomy; Literature.

Mathematics.—Higher Algebra; Solid Geometry; Plane and Spherical Trigonometry and Surveying, with use of instruments; Analytical Geometry; Differential and Integral Calculus.

Natural Sciences.—Natural Philosophy, as much as in Snell's Olmsted; Astronomy, Descriptive and Mathematical; Chemistry; Geology or Mineralogy; Zoology.

History.—General History.

MASTER DIPLOMAS.

A regular graduate who has continued his studies for two years and practiced his profession during two full annual terms in the common schools of the State, may receive a second diploma, constituting him a Master of the course in which he graduated, and conferring one of the following corresponding degrees: *Master of the Elements; Master of the Sciences.*

To secure this diploma, a certificate of good moral character, and skill in the art of teaching, signed by the board of directors by whom he was employed, and counter-signed by the county superintendent of the county in which he taught, must be presented to the faculty and State Board of Examiners by the applicant.

ACADEMIC DEPARTMENT.

ACADEMIC COURSES.

For students who desire to prepare for College, and for others who do not wish to take a Normal Course, an ACADEMIC DEPARTMENT is organized with the most ample facilities. The branches are pursued with the same thoroughness required of the students in the Normal Course. Students who complete this course are admitted to the various colleges, without examination in the subjects named. The courses of instruction are as follows:

I. PREPARATORY COLLEGIATE.

JUNIOR YEAR.

FIRST TERM. 16 weeks.	SECOND TERM. 12 weeks.	THIRD TERM. 14 weeks.
Arithmetic.	Arithmetic.	Algebra.
English Grammar.	English Grammar.	Cæsar or German.
Geography.	U. S. History.	Greek (begun) or Natural Philosophy.
Reading.	Reading.	English History.
Latin or German (begun.)	Cæsar or German.	English Classics.
Manual Training.	American Classics. Manual Training.	Manual Training.

SENIOR YEAR.

First Term. 16 weeks.	Second Term. 12 weeks.	Third Term. 14 weeks.
Cicero or German.	Virgil or German.	Virgil or German.
Anabasis or Chemistry.	Anabasis or Chemistry.	Iliad or Chemistry.
Latin and Greek Composition or Natural Philosophy.	Latin and Greek Composition or Natural Philosophy.	Roman History or General History.
Algebra.	Algebra.	Botany.
Geometry.	Geometry.	Geometry.
Rhetoric.	English Classics.	English Classics.

II. GENERAL ACADEMIC.

The conditions of admission to this course are the same as for admission to the junior year in the Elementary course. See page 20. The branches are as follows:

JUNIOR YEAR.

First Term. 16 weeks.	Second Term. 12 weeks.	Third Term. 14 weeks.
Arithmetic.	Arithmetic.	Arithmetic (*half term.*)
English Grammar.	English Grammar.	English Grammar.
Algebra.	Algebra.	Algebra (*half term.*)
Reading and Literature.	Reading and Literature.	Reading and Literature.
	Drawing.	Drawing.
Civil Government.	Latin.	Latin.
Manual Training (*half term.*)	Geography.	Manual Training (*half term.*)
Geography (*review.*)	U. S. History (*review.*)	Vocal Music.
		Physiology

SECOND YEAR.

First Term. 16 weeks	Second Term. 12 weeks.	Third Term. 14 weeks.
Geometry.	Geometry.	Geometry.
Rhetoric.	English Literature.	English Classics and Elocution.
Psychology.	Psychology.	History of England.

Natural Philosophy.	Natural Philosophy.	Botany.
Latin.	Latin.	Trench on Words.
Drawing.	Drawing.	Book-keeping.
Manual Training.	Manual Training.	Manual Training.

SENIOR YEAR.

First Term. 16 weeks.	Second Term. 12 weeks.	Third Term. 14 weeks.
Solid Geometry.	Astronomy.	Plane Trigonometry and Surveying.
Chemistry.	Chemistry.	Zoology.
Cæsar.	Virgil.	Virgil.
Logic.	Evidences of Christianity.	General History.
Moral Philosophy.	Political Economy.	
English Literature.	English Classics.	English Classics.

COURSE OF PIANO FORTE STUDY.

FIRST GRADE.

Mathews' Twenty Lessons to a Beginner, Standard Course of Piano Forte Study, Grade I. and II.; Mason's Technics.

MacDougall's Studies in Melody Playing; selected pieces from Beethoven, Bach, Clementi, Gurlitt, Hummel, Reinecke, Schumann, and modern composers.

SECOND GRADE.

Standard Course of Piano Forte Study, Grades III. and IV.; Czerny op. 299; Kohler op. 50; Loeschorn op. 52; Mason's Technics and School of Octave Playing.

Mathews' Introductory to the Art of Phrasing; selected pieces from the works of Beethoven, Bach, Dussek, Haydn, Mendelssohn, Mozart, Schubert, and Schumann; selections by modern composers.

THIRD GRADE.

Standard Piano Forte Course, Grades V. VI. and VII.; Loeschorn Studies op. 66; Bertini op. 29; Selected Studies from Heller; Berens op. 61; Mason's Technics.

Mathews' First Lessons in Phrasing and Musical Interpretation; selected pieces from Beethoven, Bach, Chopin, Gade, Handel, Mendelssohn, Mozart, Scarlatti, Schumann, Volkman; selections by modern composers.

FOURTH GRADE.

Standard Course of Piano Forte Study, Grades VIII. IX., and X.; Cramer Studies; Gradus ad Parnassum, Clementi; Moscheles Studies op. 70; Chopin op. 10 and 25; Bach's Preludes and Fugues.

Selections from Beethoven, Chopin, Mendelssohn, Bach, Schubert, Haydn, Schumann and Liszt.

Study of Harmony, Musical Analysis, and Musical History.

EXAMINATIONS.

IN JUNIOR STUDIES.

Candidates for admission to the Senior Class will be given A CAREFUL WRITTEN EXAMINATION in the following branches :

Arithmetic, Algebra, Physiology and Hygiene, Spelling, Reading, English Grammar, Geography (political and physical), U. S. History, Civil Government, Latin reader and elements of grammar.

There will be a special examination in Drawing, Vocal Music and Book-keeping, (single entry.) No student who has not studied these branches to the extent required, and for the length of time named in the course of study, can graduate ; (Vocal Music at least 14 weeks ; Book-keeping at least 7 weeks ; Drawing at least 28 weeks.)

Work in Drawing and Book-keeping must be submitted.

Those who pass this examination successfully, receive a state certificate which admits them to the Senior class at the beginning of any succeeding year.

IN SENIOR STUDIES.

Candidates for examination in the Senior studies who hold a state certificate for the Junior studies will be examined in the following branches:

Geometry (plane), Natural Philosophy, Botany, Rhetoric, Latin (29 Chapters of Cæsar,) Mental Philosophy, History of Education, Methods of Teaching, School Discipline, English Literature, General History, Manual Training, and a Thesis on Some Educational Subject.

Those students who pass this examination successfully have conferred upon them the degree of B. E., and receive a Diploma in which all the branches of the Elementary course are named. This Diploma exempts the holder from examination for teaching in the public schools of the state.

EXAMINATION FOR TEACHERS' CERTIFICATES.

Teachers, twenty-one years of age who have taught for three consecutive full annual terms in the public schools of the state, and who can present certificates of skill in teaching, signed by each of the boards of directors under whom they have taught, may be examined in both Junior and Senior studies, and if they pass the examination successfully, they receive a teacher's permanent certificate.

Teachers who desire to do so, may be examined in the Junior studies one year and in the Senior studies the next, teaching a part of the required three years in the meantime.

Examinations for graduation are conducted by the Faculty of the School, and by a board of Examiners appointed by the State Superintendent.

The Board of Examiners consists of the State Superintendent of Public Instruction, the Principal of another Normal School, two County Superintendents of the Normal School District in which the School is situated, and the Principal of the School at which the examination is held.

TEXT BOOKS.

Students can rent many of the text books in use, at the rate of one cent a week for each book which costs less than seventy-five cents, and two cents a week each for those costing more than this sum. Should a rented book prove, on being returned, to have been damaged to any extent, its full price will be demanded.

The following list comprises most of the text book now used in this school :

MATHEMATICS. — Arithmetic, Wentworth's Butler's Graded Problems, Brooks' New Written ; Algebra, Wentworth ; Geometry, Wentworth ; Trigonometry, Mensuration and Surveying, Loomis ; Analytical Geometry and Calculus, Loomis.

LANGUAGE.—*English*—Language Lessons, Knox-Heath; Grammar, J. P. Welsh ; Rhetoric, D. J. Hill ; English Literature, Shaw. *German*—Collar's Eysenbach's Lessons. *French*—Whitney's Grammar; Super's Reader. *Latin*—Allen & Greenough's Grammar, Harper and Burgess's Inductive Latin Method ; Allen & Greenough's Latin Authors; Andrews' or Leverett's Lexicon; Fiske's Manual of Classical Literature ; Allen's Prose Composition, Long's Classical Atlas. *Greek*—Harper & Water's Inductive Greek Method; Goodwin's Grammar; Goodwin's Anabasis; Keep's Homer; Jones' Prose Composition; Liddell & Scott's Lexicon.

HISTORY.—Myers' General; Ridpath's, Barnes', Higginson's and Montgomery's United States ; Montgomery's England.

SCIENCES.—Physiology, Walker's, Lincoln's ; Natural Philosophy, Sharpless & Philips ; Mechanical Philosophy, Kimball's

Olmstead ; Chemistry, Williams ; Astronomy, Sharpless & Philips ; Zoology, Packard ; Botany, Wood.

PEDAGOGICS.—School Economy, Wickersham ; Mental Philosophy, Baldwin ; Methods of Instruction, Wickersham ; History of Pedagogy, Painter ; Atwater's Logic.

READING AND ELOCUTION.—Swinton's, Johonnot's, Barnes', King's, Harper's and others.

DRAWING.—Baily System.

GEOGRAPHY.—Butler's Complete ; Houghton's Physical.

BOOK KEEPING.—Lyte ; Carhart's Commercial Law.

POLITICAL ECONOMY.—Walker.

MUSIC.—National Music Course.

LOCATION, BUILDINGS, EQUIPMENT, &c.

Bloomsburg is an attractive town in one of the most beautiful regions of Pennsylvania, has a good population, and is easily accessible by the three largest railroads in the State : the Delaware, Lackawanna & Western, the Reading, and the Pennsylvania.

The town has the district system of steam heating, a perfect public sewer system, pure water from a mountain stream, gas, and both the arc and incandescent electric lights.

The school property attracts much attention. It is at an elevation of over 150 feet above the Susquehanna. The view from this elevation is almost unrivalled. The river, like a ribbon, edges the plain on the south, and disappears through a bold gorge three miles to the southwest. Rising immediately beyond the river is a precipitous ridge four hundred feet high, backed by the majestic Catawissa mountain. The town lies at the feet of the spectator. Hill and plain, land and water, field and forest, town and country, manufacture and agriculture, are combined in the varied scene.

Fourteen acres of campus afford ample space for lawns and athletic grounds, and include a large and beautiful oak grove ; while the three large brick buildings which stand near the southern edge are admirably adapted to their different uses. These buildings are as follows :

INSTITUTE HALL.

This building stands at the head of Main Street, and is plainly visible from all parts of the town. It was built in 1867. On first floor are six spacious class-rooms. On second floor is

THE NEW AUDITORIUM.

This beautiful audience room has just been remodeled, refurnished, and handsomely decorated, at great expense. It contains

one thousand and twenty-six opera chairs, and when occasion demands, the spacious isles of both floor and gallery can be made to accommodate many more people. The acoustic properties are apparently perfect.

THE MODEL SCHOOL BUILDING.

The handsome two-story building which stands next to Institute Hall, covers about eighty feet by ninety, and contains about twenty-six school and recitation rooms, well ventilated and abundantly supplied with light, black-board surface, and the most approved furniture. It is here that the seniors acquire the theory of teaching, and practice in the art, twenty-one rooms being fitted up especially for their work.

THE DORMITORY.

The Dormitory is four stories high and was originally in the form of a T, having a front of 162 feet and an extension of 75 feet. The buildings are supplied with steam heat, gas, and sewer connections. On account of the steady growth of the school, this building was finally found to be too small to accommodate all who wished to attend.

A NEW WING

was therefore erected two years ago, extending toward the river from the rear of the T described above. Its dimensions are one hundred and four feet by forty feet, and it furnishes accommodations for about seventy additional students. Extending across the end of this wing and on to the front of the building is a long piazza, about one hundred and forty feet in length. This fronts the river and from it may be obtained one of the grandest views in eastern Pennsylvania.

THE NEW DINING ROOM.

The new wing was so constructed as to add a space forty feet square to the dining room, making it one hundred feet by forty feet in size. This large room with a floor space of four thousand square feet, will now accommodate over three hundred pupils. The walls have been handsomely decorated, and many have pronounced it the handsomest room of the kind they have ever seen. The kitchen adjoining the dining room is complete in its equipment, containing the latest and best culinary appliances. The food is well cooked by a professional cook, and is of the best quality the market affords, while it is the study of those in charge to furnish the table with as great a variety of food as possible.

A NEW BUILDING.

The growth of the school has been so steady and so rapid that the buildings have been taxed to their utmost capacity, and have even then failed to supply all the sleeping rooms and class rooms that are needed.

The trustees, therefore, decided to build a large addition to the north end of the dormitory. It will extend southwest to within twenty feet of the Model School building, to which it will be connected by a covered bridge. This building will contain, on first floor, a large study room, a class room, and a new manual training room, with power and stock room adjoining; on second floor a large lecture room for the department of science, with chemical laboratory and apparatus room adjoining, and two additional class rooms; on third and fourth floors there will be additional dormitories for students.

THE NEW GYMNASIUM.

At the southwestern extremity of the addition, extending northwest will be the new gymnasium. This will be about one hundred and thirty feet long and fifty-four feet wide. It will have a floor space of nearly five thousand square feet, and will be fitted up with the best apparatus made, consisting of chest weights, intercostal machines, rowing machines, parallel bars, vaulting bars, wrist machines, traveling rings, ladders, quarter circles, giant strides, boxing gloves with striking bags, &c., &c.

There will be a running gallery of a little over eighteen laps to the mile, baths and lockers for girls and boys in the basement, and a full sized bowling alley. When this building is equipped according to the specifications of the architect, there will not be a better gymnasium anywhere.

It is proposed to secure the services of a competent director, who will be able to make physical examinations and prescribe proper exercises for each student.

THE MANUAL TRAINING DEPARTMENT.

The room in which this subject is taught is forty feet square, and contains benches and tools for the accommodation of thirty pupils at a time. The teacher in charge is a person of high scholarly attainments and broad experience, who in addition to being a practical mechanic has enjoyed special training for this work.

Almost the entire school, including the model school, at different periods of the day, passes for instruction to this department. Students are taught here the structure and uses of different kinds of wood; the nature of each tool, and the principle according to which it works. They then make a drawing, afterwards an

object to correspond, and finally give an oral or written description of the object, thus combining these three modes of expression, receiving useful instruction in natural philosophy, botany, and language ; and above all securing that exact and practical turn of mind which has made famous men out of so many boys that started from the farm or the workshop.

Exercises in joinery, sloyd work, wood carving, and the making of philosophical and mathematical apparatus are also given.

THE NEW LIBRARY.

On the first floor adjoining the office, a large room has been fitted up for a library. The walls have an olive tint, while the ceiling is handsomely panelled. On the right hangs the portrait of Hon. D. J. Waller, Jr., now Superintendent of Public Instruction, who was the efficient and popular principal of the school for thirteen years. This picture was presented to the school by the class of '90. On the opposite wall facing the picture of Dr. Waller is the memorial portrait of the late State Superintendent, E. E. Higbee.

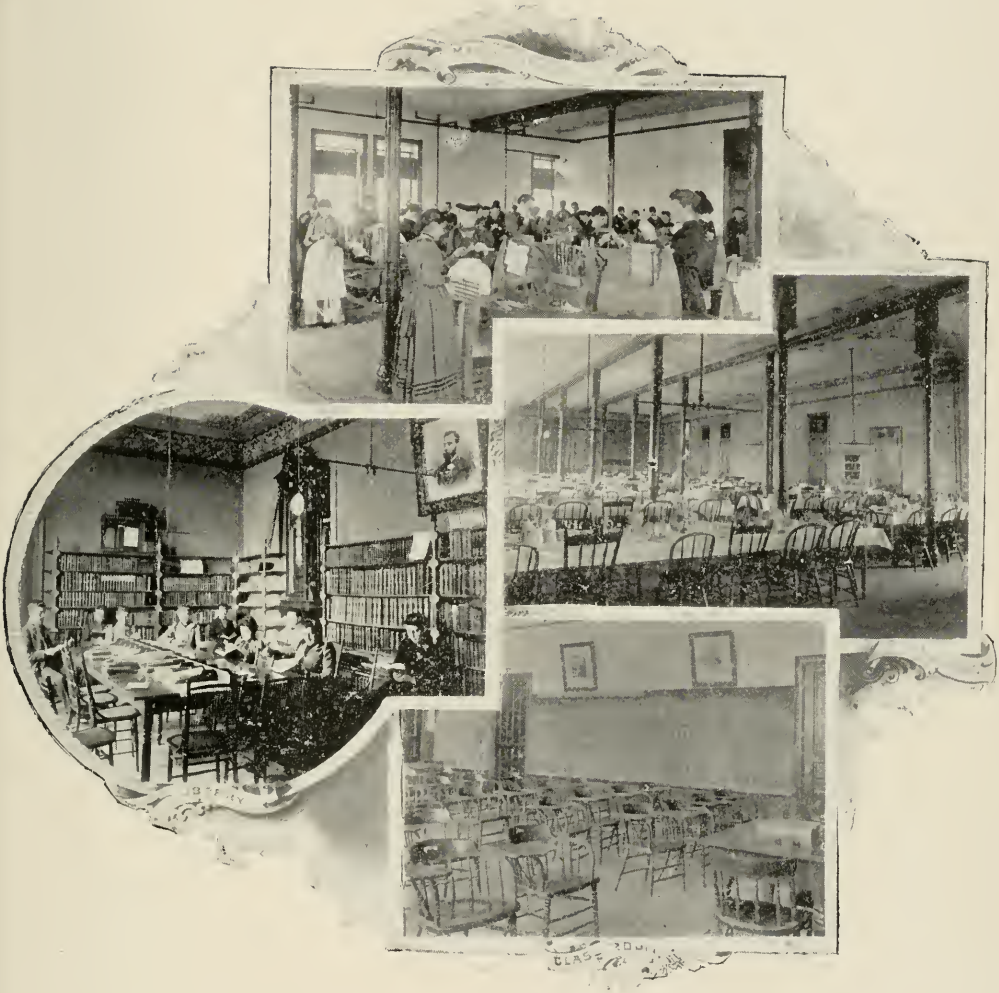
On the shelves are the school library, and the libraries of the two literary societies, containing the standard works of fiction, history, the leading cyclopedias, dictionaries, and books of reference. The reading tables also are supplied with all the important local and national newspapers and magazines.

THE STUDENTS' ROOMS.

New furniture has recently been placed in the students' rooms, and spring mattresses have been provided for all the beds. The walls have been elegantly papered, and moulding from which to suspend pictures has been furnished. The rooms are about twelve feet by fifteen feet in size. Many students carpet their rooms and take great pride in decorating them and keeping them neat. Rooms are frequently inspected, and habits of neatness and order are inculcated.

THE FACULTY.

The trustees of the school realize that it is the teacher that makes the school, and they have spared neither pains nor money to secure teachers of successful experience, broad culture, and established Christian character. As a result, the graduates of the school are young men and women who command good positions and good salaries, and who stand high in the estimation of the public. They may be found in all parts of the United States, occupying prominent positions of usefulness and influence.



THE TRAINING OF TEACHERS.

It is the distinctive province of this Normal School to train teachers. No work in the other departments is allowed to influence or interfere with this. Throughout the preparatory year, daily instruction in the science and art of teaching is given, works on teaching are read, and notes and written criticisms are made by all pupils preparing to teach. In the junior year the work is of a similar character, but more advanced, and is accompanied by lectures and discussions. In the senior year four periods per day, (over three hours in all), are given to professional work. Every senior is required to fulfill the letter and spirit of the law by teaching in the practice school forty-five minutes each day for twenty-one weeks. Those that make slow progress are required to put in extra time.

This practice teaching is done under the direct supervision of the Professor of Pedagogy and the Model School teachers, and in the presence also of a committee of seniors, whose duty it is to take notes and prepare to discuss intelligently all work done. In a subsequent meeting of the whole senior class (the same day) called "The Criticism Meeting," the visiting committees report on the work done in their presence, pointing out failures and successes, and discussing all in the light of the principles of teaching and the laws of mental growth and development. Each senior holds his class in the practice school six weeks, and then takes a different class in a different subject. Twenty-one weeks' daily teaching and twenty-one of inspecting is the rule for each senior.

When it is considered that in addition to this practice work in teaching with the attending work in criticism, every senior is given careful instruction in Psychology, Methods of Teaching, School Management, and History of Education, with lectures and discussions on each subject, the strength of the professional work of the school may be understood. It is doubtful whether any other Normal School in this or any other State is giving better professional training than is being done in this school.

THE MODEL SCHOOL.

A well graded and properly conducted model school is the most important adjunct to a Normal School. It is here that the members of the graduating class do their practice teaching. This school, therefore, should be a model in grading, in discipline, and in results.

Our Model School is under the charge of two excellent teachers, experienced both in teaching and in training teachers. One was for twelve years training teacher in the public schools of Dayton, Ohio. Under the supervision of these teachers and the professor

of pedagogy, the work of the Model School is carried on and is of such an excellent character as to commend it to patrons and to the public in general.

THE STUDENTS' LECTURE COURSE.

In order that the students of the school may have the opportunity to hear from time to time some of the leading lecturers of the day, a Students' Lecture Course has been organized. For the ensuing year the following well known lecturers and entertainments have been secured.

Nov. 26th. The Boston Stars, including Nella Brown (Pond), the noted reader, and Chas. D. Kellogg, the popular bird-warbler and whistler.

Dec. 8th. Dr. Thomas Dixon, pronounced by many the best lecturer now on the platform. His subject will be "Backbone."

Jan. 20th. Chas. H. Caton will deliver his great lecture on Wellington and Napoleon.

Feb. 17th. Edward P. Elliot, will render "Lend Me Five Shillings," a play in which he will represent each character himself without even change of costume or scenery.

April 14th. James M. Beck Esq., will deliver his lecture on Columbus.

This is doubtless the strongest course the school has ever had.

It is the aim, by means of this course of lectures, to give the students enjoyment and culture; and the price of tickets for the entire course is only one dollar and a quarter, or twenty-five cents for each entertainment. If the receipts at any time should exceed the cost, the surplus will be expended in books for the libraries.

THE MILITARY COMPANY.

Some of the young men of the school have organized a military company, called the Normal Cadet Corps. They meet for drill on Monday and Wednesday nights of each week, and are supplied with Springfield rifles from the State Arsenal of the National Guard. The young men find the exercise very enjoyable and equally profitable.

THE ATHLETIC ASSOCIATION.

An athletic association composed of students, has charge of all out-door sports, such as base ball, tennis, foot ball and the like; and the directors of the association have done a great deal to foster and encourage an athletic spirit in the school. The ladies have organized several walking and gymnastic clubs. Several clay tennis courts have been made and a tennis club has been organized. A foot-ball team will be ready in September to take the field.

THE SOCIETIES.

These two flourishing Literary Societies, comprised of students and teachers, are devoted to the intellectual improvement of their members. Each holds a weekly meeting, the exercises of which include Essays, Readings, Declamations, and Debates. Among the benefits to be derived from membership, by no means the least, is the training received in the conducting of business meetings, and the knowledge acquired of Parliamentary rules.

The societies have each a society hall on the first floor of the Dormitory building, the Calliepian in the north and the Philologian in the south end of the main part of the building. These halls are elegantly and appropriately furnished.

DISCIPLINE.

All students are expected to observe such regulations as may be needed from time to time, in order to secure to students their rights. Gentlemanly and ladylike behavior are matters of necessity, and no student is allowed to remain in the school who does not show by his devotion to work and his behavior, that he is in earnest in his efforts to get an education.

RELIGION AND MORALS.

The school proceeds upon the principle that careful religious training is essential to the proper development of character. The religious teaching is evangelical but not sectarian.

Family worship is held daily. All students are required to attend church on Sabbath mornings. A Service of Song or a Bible Reading is conducted each Sabbath evening The students sustain a Young Men's Christian Association, and a Young Women's Christian Association, which hold separate prayer meetings each Thursday evening.

On Sunday afternoons during "quiet hour," which extends from 2 P. M. till 4 P. M., many of the students meet in small groups called "Bible Bands," for the study of the scriptures. Attendance upon these is purely voluntary.

VISITING AND GOING HOME.

Parents are requested not to call pupils home during term time, except in cases of absolute necessity. Every recitation missed, places the pupil at a disadvantage, and seriously affects his standing. Giving permission to visit friends is equally distracting. When a visit home or elsewhere is contemplated, it distracts the mind on the day of departure, and it takes the first day after returning to get the mind back to work. This causes practically the loss of two days in addition to the time lost while absent, and

makes the pupil lose much of the benefit for which he has paid.

Parents and friends are also requested not to send boxes of eatables to students, without first consulting the Principal. Many cases of ill health may be traced to eating stale and indigestible food. Besides the ill effects of keeping eatables in a living room, boxes encourage eating at irregular times and produce other irregularities that interfere with good health and intellectual advancement. We guarantee good, wholesome food, well cooked, and plenty of it; and we arrange to have as great a variety as the markets afford; so there is no occasion for sending eatables to students.

APPLICATIONS FOR TEACHERS.

The Principal frequently has applications for teachers for positions both within and outside of the state. During the past year he has had more applications than he could fill. Those who want schools are at liberty to put their names on his list, but they should inform him as soon as they secure a position; while those who need teachers are urged to apply early that they may get the best.

OUTFITS.

Each student is expected to furnish for personal use: towels, table napkins, one bed-comforter or pair of blankets, slippers, overshoes, an umbrella, and a carpet

DAMAGES.

All damages done to the rooms, halls, furniture, or school property, will be charged to the students who do it. No nails, pins, or tacks of any kind are to be driven in the walls or doors, and all pictures must be suspended from picture mouldings.

LAUNDRY REGULATIONS.

Each one is allowed twelve articles of plain clothing in the weekly washing. The following regulations are in force:

1. Have your name on every article of clothing. WRITE IT PLAINLY, AND USE NOTHING BUT INDELIBLE INK. Most missing articles are lost because of defective marking.
2. Have a large clothes-bag, so that ironed clothes need not be folded too much when put into it for delivery. Be sure to have your name on the clothes-bag.
3. The personal wash must be ready for collection by 6 o'clock on Monday morning.
4. On Saturday mornings, after breakfast, the personal wash will be delivered at the laundry.
5. Exchange soiled bed linen (one sheet and two pillow cases) for clean linen, on Friday morning, after breakfast.

STATE APPROPRIATIONS.

By an act of the Legislature, the following appropriations are made by the State of Pennsylvania to Normal Students and graduates :

1. Each student over seventeen years of age, who shall sign a declaration of intention to teach in the common schools of this state, shall receive the sum of fifty cents per week.

2. Each student, who, UPON GRADUATION, shall sign an agreement to teach in the common schools of the state TWO SCHOOL YEARS, shall receive an additional sum of fifty dollars.

3. Any student, to receive these benefits, must attend the school AT LEAST ONE TERM OF TWELVE CONSECUTIVE WEEKS, and receive instruction in the Theory and Practice of Teaching during that time.

Sometimes the amount appropriated by the Legislature for this purpose is insufficient to pay the full sum of fifty cents per week, but this school allows the full amount, and deducts it from the bill of each student that complies with the law.

EXPENSES.

The cost of tuition and board, including heat, washing, furnished room, &c., for the school year is $199.50 ; for the FALL SESSION of sixteen weeks, $76 ; for the WINTER SESSION of twelve weeks, $57 ; for the SPRING SESSION of fourteen weeks, $66.50. One-half in each instance is payable in advance ; the remainder, at the middle of the term.

There will be an additional charge of $2 per term to each student boarder for gas.

The "State Aid" of 50c. per week is deducted from the bills of all those who are preparing to teach and who comply with the legal conditions stated on page 37, thus making the total cost to the teachers, $178.50 per year : for the FALL SESSION the amount deducted $8 ; for the WINTER SESSION $6 ; and for the SPRING SESSION, $7.

Tuition and board per week, for full term.....$4.75.
Tuition and board per week for less than a term.....$5.00
Tuition alone per week, payable at the middle of the term, $1.50
Tuition in the Model School per week.....25 cts.

MUSIC, PAINTING, &c.

Private lessons in instrumental or vocal music, per term of twelve weeks (two lessons per week). $12. No charge is made for class instruction in vocal music.

Use of instrument (without lessons) per term $3.

Private lessons in painting, water coloring, crayoning, or drawing, $12 per term.

No charge is made for class instruction in drawing.

The Alumni.

CORRECTIONS IN THE ADDRESS OF THE ALUMNI ARE REQUESTED.

OFFICERS OF THE ALUMNI ASSOCIATION.

President, R. M. Geddis, '81.
Vice President, Eva Rupert, '70.
Rec. Secretary, Dora Marr, '81.
Cor. Secretary, Prof. G. E. Wilbur.
Treasurer, H. G. Supplee, '80.
Ex. Com., Prof. J. G. Cope, Chairman.
H. O. Hine, '85.
Orval H. Yeiter, '87.
Bridget A. Breslin, '81.
John M. Clark, Esq.
Orator, Mark Creasy, '91.
Essayist, Mary E. Albertson, '89.
